The team at Nobody's Auto are the only ones I trust. I do not have to worry about my car not getting fixed properly the first time around nor do I have to worry about being taken advantage off. Thank you guys for the great work you do. God bless you always and may you continue to prosper!

about 100K miles. I've driven 150K miles on that engine since Andrew did the overhaul. Kind of sounds like it left his shop in better shape than it left the factory. Still running perfectly, headed towards 300K. Thanks Andrew!

They stay busy so you need to book (in most cases) they work 2-3 weeks in. Of course depends upon the service needed, no phone quotes, but if you come in they can pretty much tell you tell problem after checking it out, and what the cost will be.

I can always count on Andrew to be honest , trustworthy, and kind. I would highly recommend taking your vehicle here for repairs! As a female, I have never felt like I was being taken for a ride . When I first came here for an oil change,I thought for sure I would get the usual run around and be given a huge repair estimate, when I only came in for an oil change.... Andrew called me to pick up my car and just charged me for the oil change ... he had no crazy estimate piggy backing on my invoice. His honesty is unparalleled. It's refreshing!!!!

We had a sudden car issue recently that needed to be fixed right away. Even though Nobody's was completely slammed with work, they managed to not only get our car in, but had it fixed right in a short amount of time. I cannot stress how much this means to us. Andrew is, without fail, the best person to work with and talk to. He is straightforward and honest in dealing with his customers. Finding Nobody's as our "go to" car repair shop has been one of the best things we have ever experienced. We would highly recommend Nobody's to anyone with no reservations whatsoever.

Nobody's automotive repair shop is the only place I would ever consider using. All of my dealings with them have been positive and I am completely happy with their service. They are honest, dependable and do great work. I have had poor results with many other local auto repair shops - and Nobody's is terrific by comparison. I plan on going to them exclusively for any future vehicle maintenance and repair needs. Also, I would recommend them without reservation to anybody.

I dropped my vehicle off on Sunday night with a typed list of what I felt needed done. Monday afternoon I got a call from Andrew telling me that my car was ready for pickup. He proceeded to tell me that he did not change the trans fluid or flush and fill the coolant as I had requested because it was not needed. He could have done what I asked him to do and have me pay him for his servicesinstead he did what he thought was in my best interest. I believe that everyone driving a vehicle should make Nobodys their ONLY place to have their car repaired and/or maintained. There are not many businesses that are honest and trustworthy anymore. However, Nobodys is all of that and more. Let Andrew meet all of your automotive needs. You will not be disappointed.

Nobody's ALWAYS has great car service as well as great customer service. They are always very friendly, tell you what to expect and even have a cup of coffee there for you, if you want. They are a very clean facility and what I like best is they are religious and do NOT fix things just to get your money. They are very honest folks. I have been going to them for years and will not go any other place with my car for a repair.

I appreciate not being taken advantage of which so many women are by mechanics. I have taken my car to the dealership and have been informed that I needed thousands of dollars of work, only to take it elsewhere to find that I did not need what was stated. Nobody's was one of the shops I went to after an experience with the dealership. On my most recent visit, I thought that I needed brake pads, I appreciated being informed that I did not. I believe the service I received was what was really needed. Good Christian base service.

Brought my wife's truck in on tow on a Friday early evening and had it back with a new starter by Saturday afternoon. I was expecting Tuesday at the earliest. When one of our cars go down, it's a big deal. We always have to be in 2-3 different places at once and doing that with one car is very difficult so we appreciated the expedited service. Andrew and his team took the best care of my car and my needs. He and the staff were attentive and conscientious of my time. He provided me with an explanation of what was wrong with my car and really looked at my car and even told me things I didn't know that was wrong that a previous garage did not mention. The mechanic even took it for a drive to make sure everything was in working order. This was my first time at this place and I'm sold. I highly recommend getting your car maintenance done here! The pricing is competitive. My daughter and I experienced personable service with a smile. They will also check to make sure the service you need done really needs to be done and if it doesn't, they will let you know. I was pleasantly surprised and comforted to notice, by the decor, that this is a christian company. I will be back for sure.

Nobody's is our family's GO TO for auto repair. Responsive, skilled, caring. Over the past few months I have taken in my van with what seemed to be serious issues and pardon me, but I feel there's "healing" power there. They are fair & never take advantage of me. I refer to Nobody's all the time. We are frequent fliers there because we choose to keep our older vehicle. Thank God for Nobody's!

This is the best place that I have EVER done business with! The first time I went to Nobody's I was in a bad state and their kindness was like nothing I've seen! They saved me over \$1,000.00 over a quote from Pep Boys. They also got the work done in great time and my car ran better than in years! So very blessed! :) When we use Nobody's it has always been a pleasant day.

I was referred to Nobody's Auto from my mechanic from yourmechanic.com who spoke highly of the skill and knowledge of this shop. I have usually had major work done at Gwinnett Honda for my '98 Odyssey. I was very satisfied with the service that I received at Nobody's. The customer service was outstanding, the response to questions thorough and the prices were consumer friendly and just. I've made this my new go to for all vehicle repairs for my family and will refer all of my friends. Thanks much for the great service and am looking forward to doing business again with you with confidence.

Love this place. I know I can trust them with my vehicle and they will treat me fairly. The reason for 4 instead of 5 has to do with their communication. They had my vehicle for repair and told me it would be done on a certain day. So I made arrangements to get a ride that day to pick it up. On that day I finally called for a status near the end of the day and was told some things had happened the night before and it would be the next day. Now I understand things happen and delays can be unavoidable. However they knew it would be delayed that morning and should have called then. Would they have even called that day if I hadn't? Seems minor but it caused a lot of upset in not only my schedule but the schedule of those who were trying to help me. A simple call would have been very much appreciated.

Nobody's checked the codes on my truck to see why the check engine light was on, and when they found no problem they reset the codes and didn't charge. The next day I had my car (different vehicle) towed to them with engine trouble. The original estimate was they would have repair done on Tuesday at the latest (it was towed on Thursday). I got a call from Art on Saturday morning to come get it, and it now runs great. I highly recommend them.

Friendly and Knowledgeable - Andrew and the team were very nice, straight-forward and helpful. We took a car here for an a/c diagnosis before purchasing it, and I'm so glad we did. They were able to identify some very costly issues that would have been a big issue if we had decided to purchase that car, so it definitely saved us money and hassle. The whole team seemed friendly, and the service was performed quickly. We will definitely return.

From the moment I walked in the door and starting speaking with Andrew he put me at ease...He was very professional but also personable... After checking my car and its issues in he assured me that NO work would be done before I was called with an estimate and sure enough I was called later on that day and told how much my repair would cost and my estimate included taxes annnd labor and it was very affordable... I was very pleased with this auto shop, I don't think I've ever been able to say that about any other auto shop before...from beginning to end Art and Andrew were Wonderful... Customer service is a lost art these days but not in this shop...I commend these gentlemen for running a top shop! Thank You Very Very Much!

The owner Art, was very knowledgeable. He fixed the problem for an affordable price and I was out of there in two hours. Most shops would have me wait around the entire day, and no matter what the problem was, it always cost a few \$\$\$ to fix. I am happy that I found this shop. I have recommended it to others and I will be coming back.

It would be best if they would tell you the significant price difference between regular and synthetic oil before you purchase it. Also, I called before I came and inquired about some services, however when I arrived I was told that they mainly work by appointments only and that I was in luck because they had some no-shows that morning. That type of information would be important to tell a caller before they come to your establishment in case prior appointments are kept.

The team at Nobody's is fantastic. I have brought my vehicle to them twice. Each time they went through all options for repairs in detail, including options that would not bring in as much money for them. They truly have the customer's best interest at heart and are the most honest team I have ever dealt with in my 35+ years of driving. Thanks Nobody's!

As always met with courteous greetings. Andrew was knowledgeable and patient as my daughter went over her notes regarding the car. As I was paying for the service I asked Andrew to call me prior to commencing any work and he did. As I suspected, repair was too much to put into the car. I appreciate the honesty and always receive great service at Nobody's. I plan on purchasing a 2010 Toyota Corolla from my brother in law and Andrew encouraged me to bring it in so it could be checked out even though I know he had it serviced regularly. Andrew said its best to check to make sure services were done and done correctly. I like that. Thank you again! Thanks for the great service you provide.

The guys at Nobody's are pretty cool people. I half way expected to see Paul Rudd walk out from the back and tell me to just have a really great day. Andrew did the next best thing, he told me that I still had 60% life left in my brake shoes and the services was not needed. How it usually works at places like Good Year and Midas is you take your vehicle in and they tell you need thousands more in work done and also you have liver cancer. Anyways, I asked Andrew to go ahead and get it done because the rotors did need to be turned. I literally demanded that they take my money, for fear that down the road (lol) I would have to go somewhere else. Screw that, I found my mechanic! Its a very nice shop they have there, with excellent mechanics, and the coffee is for everyone. :)

All work was done in a timely manner. I went in to have brake work done. Upon inspection, they saw that only my front brakes needed to be replaced along with the rotors and my back breaks were in excellent condition. If I had gone somewhere else, they would've never robably replaced everything costing me at least twice as much. I will definitely be back!

They are very knowledgeable and honest. I took my vehicle in for a repair and oil change. They repaired the vehicle and told me that it was too soon for my next oil change. Some repair shops might have changed the oil anyway, just to charge more. Speaking of cost, their prices are more reasonable than other shops I've visited. I have an older vehicle and can't afford a new one at this time. I trust that Nobody's Auto can keep me safe on the road for some time to come. I only wish that they had shuttle service.

I made an appointment with my Mustang 2012 to get a alignment. When I came in for my appointment with my Mustang they took it and later called me said they couldn't do nothing because of the year of Mustang which is a 2012. I was disappointed and I had to take my car to the Ford dealer to get the alignment. It is hard for me too late and because they never did anything to my car.

The facility is clean, it's location is convenient, and the staff was courteous. They really made a good first impression on me. However, my car stopped running because an oil leak caused several components to become saturated to the point of failure. Nobody's charged me an ungodly amount of money to fix it. After picking my car up, I was initially pleased because I had my vehicle back. Two days later, I noticed the smell of burning oil again and decided to look under the hood. I STILL had the oil leak. I couldn't afford to be without my car for another week. So, I decided to fix it myself. I ended up replacing parts that I thought they had replaced and charged me for, then discovered that my real issue was a faulty PCV valve. That's something I thought they should have caught. I'm pretty sure I'll just find someplace else to take my car the next time it breaks down and I don't have time to make repairs myself.

I had used the same repair center for almost 15yrs when they up and closed and gave no warning. Not even to long time customers. I was concerned and started searching for a local shop I could trust. As you know, this can be a challenge at best. I went through several local shops, most of which always tried to sell me more than I came in for. I had passed Nobody's for many years without much thought. Then I started hearing their name and how great Art and Andrew were. Again, didn't think much about it...at first. Then the more I heard the more I wanted to hear, because I needed a good, trustworthy shop. Well I have found them! Nobody's has been the best shop I have been to since I managed a real "Service Station" back in the late '80's. Art and Andrew are always very professional and kind. They truly want to help you solve the problem at hand and NEVER try to sell you something you don't need just to increase their bottom line. I love these guys and this shop and feel blessed to have found them. Congrats on their new building! They certainly deserve it!

My thanks to all the loyal customers who provided the great reviews. I am new to the area and had a very bad experience when I first arrived in Lilburn back in March. I was referred by a co-worker to a shop in Alpharetta for other repair needs when I read the reviews I was both shocked and thankful. One of the bad reviews mentioned (Nobody's) so I read all the great reviews and took the chance. I went to the wrong location and was greeted by one of the mechanics who came out and asked how can I help you, I said I was looking for Art to drop off my car for repair. He said we are the new overflow shop and the main location is just around the corner. Take a right at the light and the facility will be a couple of driveways on my right. I met Art and felt very comfortable and felt I would be treated fairly and honestly, which is exactly the result of my first experience. I am a satisfied customer and will return to Art and the team at Nobody's for all future auto repair needs!!

I went in today because I was told by the people who change my oil usually, that I had a cracked bottle that my water was in for my windshield wiper. When I got in there, they found it was not the bottle, but the hoses to it. They also found a nest with a rat in it. Yuck! But they dealt with this and fixed my hoses. I love that they are a christian owned place. I strongly recommend them to anyone. They are very clean, courteous and great. They don't try to sell you something you don't need.

Nobody's Auto Repair is by far the best auto repair shop! I went in when it was very busy and even though they had a lot going on the guy helping me (Andrew) listened intently to the problem with my car and helped me to understand what was going on with it. He gave me a fair price and did great work in a timely manner. He was nice, patient, efficient, and very knowledgeable. My experience with the owner wasn't that great, so if you go to Nobody's, deal with Andrew!! He's awesome!! Overall great experience! It is rare to find good people who treat others the way they would like to be treated. Not only does my car run better than it ever has, but when some unexpected issues came up, they treated it like it was a part of the repair, and not some way to add a bunch of service fees to my repair. It is quality work, and great people. They have earned my business from now on.

Free oil change and fixed my check engine light problem within reasonable timeframe. Competitive pricing on most if not all their services. This is my new shop. I've bounced around from express oil, to NTB, and none even come close to the courtesy and professionalism this team has shown. Great business they're running. I'll be back for some more work!

The service was as usual - OUTSTANDING!!! At the ripe old age of 75 and having had over 22 cars in my lifetime, I believe I can safely say I know superior service when I see it. I presently have 3 cars that Nobody's has been taking care of since I returned to the Atlanta area in early 2010. All 3 vehicles are running like a top....a 2007 Mercury Mountaineer, a 2008 Chevy Avalanche and a 1993 (5.0) Mustang convertible. The Mustang is in outstanding condition and I take it to car shows once in awhile.

Nobody's is very deliberate about their service. We have 5 vehicles in the family and all at serviced at Nobody's since 2010. When service is needed they are very good at pointing out only those areas that are in need of repair. If it is a safety issue, they will let you know. When asked, they provide estimates of other mechanical issues that may need attention in the near future. It allows our family to budget for repairs with a piece of mind that repairs and service that are being performed are actually necessary, all with very competitive prices.

Brought in our 2000 Ford Ranger to have the check engine light issue diagnosed and repaired. Issue was identified as a faulty fuel pump. The quoted price for the repair caught me off guard as it was an expensive undertaking. The great thing was that not for one second did I think I was getting ripped off. Having dealt with Art and Andrew for years I knew they were both honest and would not up sell or perform unnecessary work to pad a repair cost. The repair was made in a timely manner and truck is running great.

I had to get a tow to them last Thursday 7/9/15 & there were many cars ahead of me to be looked at & worked on so I was thinking I wouldn't have my car back until Monday or Tuesday the following week. They looked at it the same day & it was ready for pick up by Friday 7/10/15. Very good pricing & I never feel like they are lying to me regarding work or price. I will not take my car anywhere else for repairs. I can't make it over to that side of town for reg. oil changes so I do go elsewhere for those but wouldn't trust anyone else with repair work. had a great experience with this business. everyone was so professional and i felt like good honest rate was given for the work done. the things that impressed me about this business is 1) when i dropped my car off i was prepared to call a cab to take me home, but none was needed. one of the mechanics drove me home and picked me up when the work was done. 2) as i was waiting to pay for my service, there was customer in front of me and the mechanic had misdiagnosed a problem and didn't charge him for that mistake. i was very impressed. he accepted that it was mistake and didn't put the cost on the customer. some place if not most would have handled that very differently. it's hard to find mechanics who you can trust and as a woman, it's gets somewhat intimidating but after today, i can honestly say this place is great and i will be using them from now on for all my auto needs in the future. keep up the good and honest work. thanks.

Only complaint would be that the repairs were started before going over what they were first. I had not heard anything on the status and when I called to check to see what the problem was, I was told that they were finishing the repairs. This time it turned out to be a minor repair, but I would have preferred to have been informed of the issue and cost before work was done.

Your work is excellent as always; however, my car is still experiencing idle issues; it will act like I am pushing the accelerator pedal when I am not (sitting still idling after the car warms up) or if I turn it off, run into, say a convenience store for just a minute and then turn it on to leave. Also, sometimes in a situation close to the last one described it will act like it is going to stall, losing power then gain it back. Don't know if the computer is still getting used to the new idle air control part that was installed Monday, March 10 or if a new issue has come up. Please contact me with your ideas or recommendations. Thank you.

Took our Matrix to Nobody's for our first visit. Had them take a look at the brakes and Andrew called us back to let us know the rear brakes looked, good but the fronts would likely need to be replaced. His explanation was clear and he made no attempts to talk above my head. Because of his replies, we had them replace the spark plugs as well - and the Matrix is running smooth as ever and can stop too! Which is always a plus.

I have been a regular customer & have referred others in the past. recently brought a vehicle in that I had just purchased. The front end alignment really needs to be done now & was not addressed or even mentioned after two test drives by two people. After almost \$900 worth of work, I still need an alignment. Also, the charge for front brakes is excessive in my opinion. It's \$46 of parts. Hard to believe that it takes that long to install them -that's \$115 an hour if that's how long it takes. Makes me question the other charges.

I am very skeptical of mechanics shops, but this was a great experience: they weren't trying to increase the prices, they were direct and respectful but most of all, the workers were competent, knowledgeable and fast. clutch fine. I smell burning oil/residue. Will have to look under car this weekend to see if oil seal or oil spill is the culprit. I don't burn the clutch. Jury still out.

I've been doing business with Art and his staff at Nobody's for a long time, and I will say two things about my experiences there. 1. They only repair what's wrong. 2. I've never had to take my car back to have a repair done over. Great to do business with.

Art and his crew fixed it right, finished it before they said they would, and even paid the wrecker truck up front to make it more convenient for me. They were great at communicating what needed to be done, stuck to their estimated price exactly as they gave it, and charged me far less than I was expecting to pay. These guys know what they are doing and are not afraid to be friendly to their customers while they are doing it.

I've been in the transportation business over 18 years. I average 75,000 miles per year just in my personal vehicle. Everyone should understand that my vehicle maintenance is extremely important to me and my business. I've tried garages all over the Metro Area. I must tell you the TEAM at NOBODYS is the best. They are honest and up front. I run high mileage; I have vehicles ranging from 145,000 to 283,000 miles. With Nobody's at my side, I will drive them anywhere and I do! I write this review because I want to pay it forward. I want you and your family and friends to have the same peace of mind knowing that you're going to be treated honest, with respect and know where you stand with your vehicles dependability.

That check engine light scares me! Other mechanics/ dealers could rellly work you over. Nobodys ran diagnostic - indicating lean fuel- checked it out - did not find an on going problem, reset the light and my wallet is saved. I did need brakes and they took care of that in affordable , expedient fashion. They renew my trust with every visit.

I needed some repairs on electric door locks and windows that the Ford dealer wouldn't do . The staff at Nobody got it done in one day. I have also had motor mounts , and suspension work done on an older work van-- definitely more affordable than Pep boys, or the tire chain store. And one day my wife was concerned about a failed turn signal light , they were nice to fix it with out an appointment so she could go on with her day. I like the skill and the ethical background of Nobody's -- good people doing good work!
